

Kasper Kuirinlahti

SOFTWARE DEVELOPER

Full-stack .NET · databases · server infrastructure · AI integrations

EMAIL kasper@kuirinlahti.dev GITHUB github.com/0NullNull LOCATION Parkano, Finland

PROFILE

Software developer who designed and built a large operations platform that is in daily production use, end to end: from the user interface and APIs to the database, server infrastructure and AI integrations. I enjoy building systems where technology supports real work, and I learn new things quickly.

I am a generalist by experience, and now I want to go deep in one area and grow into an expert in it alongside more experienced developers.

LOOKING FOR software developer roles in the Pirkanmaa region or remote.

EXPERIENCE

Software Developer

11/2025–

Suomen Tekojää Oy · ice rinks, heat pumps and refrigeration

Designed and built the company's internal operations platform, which is in daily production use. I am responsible for its development and operation.

Operations platform — .NET 10 · Blazor · PostgreSQL
Equipment registry, service and work reports, project management, chat and notifications.

PLC data collector — Python · Windows service
Collects data from industrial controllers and passes it to the platform.

AI assistant — Claude API · Ollama · RAG
Finds and works with company data within each user's access rights.

Customer portal — ASP.NET Core
Separate app for the company's customers.

Server infrastructure — Docker · Nginx · Linux
Deployments, backups, monitoring and security.

Commissioned projects

2021–2024

During studies · Games for local companies, commissioned through school.

SIDE PROJECTS

fun.kuirinlahti.dev

2026

Hobby project · browser games and a multiplayer game server · Hittimeemi asks you to name a Finnish meme from a half-second clip, Reaktio is a real-time reaction duel. Own WebSocket game server: rooms with join codes, user accounts and leaderboards.

EDUCATION

Vocational Qualification in ICT

2021–2024

Software Developer · Vuoksi

POSITIONS OF TRUST

Vice-chair, Parkano Youth Council — 2019–2020

DAILY USE

C# · .NET / ASP.NET Core · Blazor · Entity Framework · PostgreSQL · JavaScript · HTML / CSS · Docker · Linux · Git

EXPERIENCE WITH

Python · C++ · SignalR · TimescaleDB · REST APIs

filled = daily use · outlined = experience

AI

Claude API · Ollama · RAG / pgvector · LLM agents · AI-assisted development

DEVELOPMENT TOOLS

Visual Studio · VS Code · Claude Code · GitHub · GitHub Actions · pgAdmin · xUnit

INFRASTRUCTURE & SECURITY

Docker Compose · Nginx · YARP · TLS / private CA · pgAudit

INTEGRATIONS

Beckhoff TwinCAT / ADS · Microsoft Entra ID & Graph · Pipedrive API · Google Maps API · Web Push · WebAuthn / passkeys · PyInstaller

OTHER SOFTWARE

Photoshop · DaVinci Resolve · Word & Excel

LANGUAGES

Finnish — native

English — excellent

OTHER

Driving licence (B) — own car
